PRODUCT & DESIGN

The Definition of Beautiful & Durable

The floor designed and produced by Dishover perfectly restores the effect of natural materials, and incorporates the unique creativity of the designer, redefining the aesthetics of the floor with the simple reproduction of natural design.

Dishover focuses on health and comfort pursuers, attaches importance to fashion pursuers and balance home strugglers as our target consumers.

Dishover's sustainability philosophy covers all aspects of our business: wood resources, research and development, manufacturing and marketing. All aspects together constitute a complete intelligent quality control system, a balance between eco-friendliness and quality.

Dishover concept helps provide healthy and comfortable living space Superior quality, performance and environmental friendliness.

COMPANY PROFILE

Dishover has been involved in the manufacturing and exporting LVT/WPC/SPC flooring since 2011. With its technically advanced production equipment, professional technical staffs and experienced sales team, produces high value added products at attractive prices to offer unique value to customers worldwide.

Vision - Be the most innovative & valuable flooring company.

Art - with rich, authentic reproductions of wood and stone presented in striking, eye-catching patterns and the ability to combine these colors and textures to create imaginative, inspiring spaces.

Quality - by increasing our investment in research and development, we bring the latest in product performance to the flooring market. That enables us to offer some of the best product guarantees in the industry.

Nature - by conserving energy and resources, while reducing our carbon footprint. In this and other ways, Dishover recognizes the very important responsibility to be environmentally manufacturing standards and sustainable practices to ensure a quality flooring product that is kind to the environment—both indoors and outdoors.

What is WPC?

WPC is a green energy saving and environmental protection product which is extruded from the mixture of recycled wood fiber and plastic (PE).

- Beautiful and elegant nature wood grain texture and touch with easy installation,thus can meet vari-ous requirements of customers.
- Can be shaved, nailed, drilled and cut to fit acces-sories of different specifications.
- No painting,no glue,low maintenance.
- Dimension stability against moisture and tem-perature.
- Environmental friendly,fully recyclableand no other hazard chemical.
